CPA & ADVISORY SERVICES FOR MANUFACTURING & DISTRIBUTION

Manufacturing and distribution companies operate in a demanding environment—managing complex supply chains, rising material costs, workforce challenges, and intense competition. With more than 50 years of industry experience, SEK's manufacturing and distribution advisors can guide your company toward enhanced efficiency, growth, and profitability.

DRIVE EFFICIENCY, GROWTH, AND PROFITABILITY

cost accounting

Accurate cost accounting is the foundation of sound financial management for manufacturers. Our team helps companies implement and maintain cost accounting systems that track direct materials, direct labor, and overhead—providing the cost visibility needed to price products competitively and improve margins.

inventory management

We assist manufacturers and distributors with inventory valuation methods (LIFO, FIFO, weighted average) and ensure that inventory is accurately reflected in financial statements. We also help identify slow-moving or obsolete inventory that may be reducing profitability.

tax strategies

Manufacturers have access to significant tax incentives, including accelerated depreciation (Section 179 and bonus depreciation), the Domestic Production Activities Deduction (if applicable), and the Research & Experimentation Tax Credit for qualifying product and process improvements.

sales & use tax

Manufacturing companies often have complex sales and use tax situations—including exemptions on manufacturing equipment and raw materials. SEK's State & Local Tax (SALT) professionals help manufacturers understand and claim available exemptions while managing compliance across multiple states.

TAILORED SOLUTIONS FOR THE INDUSTRY

As your industry evolves, so do your needs. We've designed our suite of services to elevate your operational efficiencies and strategic planning:

- Audit & Assurance Services: Gain confidence and ensure compliance with our comprehensive audit and assurance offerings.
- Business Valuation: Discover the true value of your enterprise for informed decision-making and strategic planning.
