

Manufacturing

SEK has been serving the manufacturing industry for over 45 years. Using this experience, our personnel have gained an in-depth knowledge of manufacturers and an understanding of the manufacturing process. Our goal is to understand how each manufacturer designs, makes, and markets its product, enabling us to be particularly effective in consulting with clients.

We provide a variety of services to help your manufacturing business achieve improved efficiencies, including:

- ▶ Inventory accounting and management
- ▶ Process and operational efficiency analysis
- ▶ Cash flow forecasts and projections
- ▶ Capital budgeting and analysis
- ▶ Capacity management and growth planning
- ▶ Assistance with cost accounting systems
- ▶ Tax planning and compliance, including multi-state filings
- ▶ State, local and property tax issues
- ▶ Audit and assurance services
- ▶ Business valuations
- ▶ Succession planning
- ▶ Mergers and acquisitions
- ▶ Lease/buy analysis
- ▶ Employee benefit plan design and implementation
